

## All Set Up

Jagged Edge

I was all set up just to give you all  
Then I found out everything about you is all fraud  
I was all set up just to give you all  
But I don't know anymore (no, no)  
I'm seeing you to the door (no, no)  
We was all set up

Thought I finally found someone  
What you don't know, it can't hurt you  
And I'm just speaking that truth  
But you just shot your ownself in the foot this time  
'Cause I would've gave you all of me (yeah, yeah)  
Now all you get is these two fingers in the air  
See this the type of stuff I always worry 'bout  
My relationships start good and then they go south  
I was 'bout to give you everything that you dreamed about

I was all set up just to give you all  
Then I found out everything about you is all fraud  
I was all set up just to give you all  
But I don't know anymore (no, no)  
I'm seeing you to the door (no, no)  
We was all set up

in the morning she crept out the bed  
Thought maybe she was having a nightmare

Decided I would creep up on her instead  
I couldn't believe half the things you said  
Kinda had a feeling after that I'm dead  
After that I'm dead, after that I'm dead  
I couldn't even look you in your eyes  
After that I'm dead, after that I'm  
We was all set up

I was all set up just to give you all  
Then I found out everything about you is all fraud  
I was all set up just to give you all  
But I don't know anymore (no, no)  
I'm seeing you to the door (no, no)  
We was all set up

Nothing can change in the blink of an eye  
I would've gave you my life  
Now all I wanna say is bye  
Now if you see me just keep it real light  
Or walk on by

I was all set up just to give you all  
Then I found out everything about you is all fraud  
I was all set up just to give you all  
But I don't know anymore (no, no)  
I'm seeing you to the door (no, no)  
We was all set up
