

Decided

Jagged Edge

Why you won't open up to me, girl?
'Member when you said I was the one with the keys to it? (Oh, yeah, oh, yeah)
)
You said you loved me, I said, "Me too" (Oh, yeah, oh, yeah)
So let's start over like a reboot (Ooh)
Put all my pride to the side (Ooh)
Girl, it's only you and I, I'm decided (Ooh)
Say you the one who gon' ride
Girl, it's only you and I, I'm decided

And I was tryin' not to miss on her (Miss on her)
Had the tropical, the key, yeah, this drip on her (Drip-Drip on her)
I had to make her mi-i-i-ine
Think of her like all the ti-i-i-ime
She made my life, man, when she told me that she loved me
And she never put no other one above me
So my mission: for a man to make her happy
And I don't know where we fell off, but you can add me

Can't let go, no, no
I only want mo-o-ore
What went wrong? Oh, girl
I only wanna know, know, know, woah

You stood me up for the fall, stole my pride like a felon
Gucci on your back, and I put Fendi on your melon
'Cause I just had to see both sides like Chanel, and
By design, I'm meant to be with you
That's just what it's supposed to do
I done made up my mind
I'm done wastin' time
Wanna start over new, yeah
I surrender, that's why I got my hands up
Oh, man, I just really need to man up

Can't let go, no, no (Can't let go)
