

Flow Thru My Veins

Jagged Edge

This is for everybody who got that somebody, feel like they just apart of you; you know what I mean.

Er'night I sleep next to an angel,
Yes she is that to me!
So Heavenly
The most amazing creature that I ever seen!
And she's loving me from every angle,
And she don't never miss a spot!
She flows through my body like water,
If she need me I'm on her
Baby she's in my veins!

Her love, it flows through my veins,
It's like living and breathing, not dying, not sleeping,
It's all I need!
Her love it flows through my viens,
Her love it flows through my viens,
It's the reason I'm breathin,
My heart ain't misleading,
It's all, all I need!
Her love, it flows through my veins!

I live just to keep you from danger,
Girl, it's my job just to protect you,
From the naysayers and all the haters (so many haters)
Your heart is pumping, mine too,
I feel so connected to you, baby you're all I,
Baby you're all I dream!
You're all I need,
Shorty knows, never miss a spot
She's flows thru my body like water,
If she needs me, I'm on her,
Her love is, her love to me,
Bring me right down to my knees! (shes flowing right)

Her love, it flows through my veins,
It's like living and breathing, not dying, not sleeping,
It's all I need! (all I ever need she's the only thing I ever need)
Her love flows though my viens,
It's the reason I'm breathin,
My heart ain't misleading,
It's all that I need!
Her love, it flows through my veins!

Girl me and you, like the sun and the moon,
Out of this world, ain't nothing I wouldn't do, do, do, do!
You, you, you, without you I'm sickly, I'm running our fears,
Cause it flows through our veins, flow through my veins!
Loving me, touching me, always so real to me,
Flow through my veins! Flow through my veins!
I need you like air, I need you right here

Your love, it flows through my veins,
It's like living and breathing, not dying, not sleeping,
It's all I need!
Her love it flows through my veins

It's the reason I'm breathin,
My heart ain't misleading,
It's all I need!
Her love, it flows through my veins!
