

Genie

Jagged Edge

When can I see you again
When can my heart beat again baby
If you know how I feel you wouldn't be playing it so hard no
Makes it so hard to deal with
You go ahead and lay them cards out, yeah yeah
'Cause I ain't got nothing to hide, no no
I'm telling you, you deserve me no doubt
If you only knew what I'm feeling
You would take this chance
Take this chance at love

If only you knew how much
I usually don't feel this much
Come on take this chance at love

You are genie, what you want and I'll make it happen
Girl, just lay down, yeah
Girl, if you only knew
Girl, if you only knew (What you wanted)
If you only knew what you wanted
Just make a wish and I'll get up on it
Girl if you only knew (If you only knew)
Girl, I'll be your genie and I will give you everything

Baby, make a good decision
Bought you anything you want
I'm with ya, just tell me you want it
We'll make a plan to get it
If usually out, I'll make a call up with it
I'll lay your cover at the corner
Warm you up and keep ya all safe and warm
Whatever you don't know, don't trip, I'll teach ya
And plus I'll treat ya like ya deserve to be
Take a chance girl on me
Take this chance at love

If only you knew how much
I usually don't feel this much
Come on take a chance on love

You are genie, what you want and I'll make it happen
Girl just lay down yeah
Girl if you only knew
(What you wanted)
Girl if you only knew
If you only knew
What you wanted
Just make a wish and I'll get up on it
Girl if you only knew
Girl I'll be your genie and I will give you everything

Girl, you got three wishes, I'ma grant that baby
Anything you think about girl, I'ma grant that baby
Think of anything I mean anything, I'ma get that baby
When I say anything almost anything

You are genie, what you want and I'll make it happen

Girl, just lay down, yeah
Girl, if you only knew
Girl, if you only knew (What you wanted)
If you only knew what you wanted
Just make a wish and I'll get up on it
Girl if you only knew (If you only knew)
Girl, I'll be your genie and I will give you everything
