

Get in character

Jagged Edge

You never gotta set the mood
I always been so into you
I appreciate the thing you do
'Cause you do all the things I think of
Sexy things, type of shit to blow your mind
Wonderin' which alter ego we gonna see tonight

When you get in character
Do anything to set the mood (Get the mood right)
When you get in character (Yeah)
There's nothing that's off limits, not to you when we serve
(You, baby)
When you get in character (Character)
Like the secret agent saving me from the blues and the boredom
(Saving me from blues)
I can't wait to get home to see who you're gonna be tonight
Keep me guessin', that's what I like

Ooh, you're like my favorite food
(You taste so good, girl)
You're on my menu day in, day out
Such a mystery of how you move, girl
(How you move, girl)
Houdini, but I just can't figure you out
Do so many sexy things
Girl, I love every role that you play
Who's gonna star in this movie we'll make tonight?
When we

When we get in character
Do anything to set the mood (Do anything, do anything)
When you get in character (Oh)
There's nothing that's off limits, not to you when we serve
(You and me, oh yeah)
When you get in character
Like the secret agent saving me from blues and the boredom
I can't wait to get home to see who you're gonna be tonight
(Oh, oh, oh, oh)
Keep me guessin', that's what I like

Every girl should take notes (Every girl), yeah
Take notes of this play-by-play book that you wrote, yeah
Girl, it's interesting (Interesting)
You keep it interesting (Interesting)
And that's a bad one in the room flexin' on him tonight
(Oh, oh, oh yeah, when you get in character)

When you get in character
Do anything to set the mood
(Anything to set the mood)
When you get in character
There's nothing that's off limits, not to you when we serve
(Not to you, not to you, no)
When you get in character
Like the secret agent saving me from blues and the boredom
I can't wait to get home to see who you're gonna be tonight (Oh, oh, oh)
Keep me guessin', that's what I like

That's what I like, that's what I like
That's what I like, like, like
Oh
