

Give In

Jagged Edge

Said I just popped in (said I just popped in)
From a long day of stress and I wasn't really pressed 'til I seen how my girl
I walk in (girl, girl, girl walked in)
And it's crazy how she look in that dress so
When she bunny hopped in (bunny hopped in)
I'm forgetting every bit of my stress
I just wanna get my girl locked in (girl, girl, girl locked in)
For the night baby take away the pressure

Hold up, she said what's the hold up
While you playing put your phone up
They already rolled up
Thought the we was having problems
But tonight you kind of solved them

I wanted to leave you alone
Heart said not so (heart said not so)
Baby I, I, I, I... Can't let you go
I wanted to leave you alone
My body said not so (can't deny it girl)
Baby when you body wants what it wants then you got to give in
Oh... ya know you got to give in (yeah girl)
Oh, Oh, Oh, ya got to give in

Keep that booty pop-in (booty pop-in)
And she know how to put that thang on me yeah she keep it enticing (enticing
)
And if she want me to stop she had to say when
That's right (right), See I ain't always been serious about this
Love, I just aim to please her

Hold up, she said what's the hold up
While you playing put your phone up
They already rolled up
Thought the we was having problems
But tonight you kind of solved them

I wanted to leave you alone
Heart said not so (heart said not so)
Baby I, I, I, I... Can't let you go
I wanted to leave you alone
My body said not so (can't deny it girl)
Baby when you body wants what it wants then you got to give in
Oh... ya know you got to give in (yeah girl)
Oh, Oh, Oh, ya got to give in

I wanted to leave you alone
Heart said not so (heart said not so)
Baby I, I, I, I... Can't let you go
I wanted to leave you alone
My body said not so (can't deny it girl)
Baby when you body wants what it wants then you got to give in
Oh... ya know you got to give in (yeah girl)
Oh, Oh, Oh, ya got to give in

Baby you got to give
And I got to give too

No kind of pain, No kind of hurt, then we wouldn't get through
When your body been craving, What your body been crav-ing
Baby your my safe haven
This thang that we got is amazing (yeaaaaah)
When your body's fiending, fiending
No matter what it is don't you know you gotta feed it (said I'm so hungry ye
aaah)
And you got to feed it right then (OH!)
Whatever it is I'm gone give in for you (whatever baby)
Whatever it is I'm gone give in for you...
