And there's somethin' wrong with this operating system
'Cause when you ain't around, I keep glitchin'
Glitchin'

I tried to do right by you
But intentions never die, learn wrappin' well enough
I tried to be a knight for you (Oh-woah)
But the reason, this armor wouldn't call it shut
I tried to be the one all the time with the turn up
Tried to be the one keep it lit when it burn up
