Jagged Edge

J-E y'all
Yeah
I like that
First verse

Can't believe, can't believe, can't believe
That you chose me when I know you deserve better
Faithfully loving me, giving me
Compassion and understanding any type of weather
No matter what
See I'ma keep loving you baby
No matter what
Nothing can tear us up
No matter what
Nobody's gonna take me away
No matter what

Hopefully
By now you know that being with me, me and you, that's for the best now
Hopefully
When we get together, girl I'm hearing you make those yes sounds
Hopefully, hopefully, you'll be with me
Hopefully, hopefully, hopefully
You'll stay with me
Baby hopefully

Never ree with me ?
You're just like my dream I couldn't have made you better
Internally, faithfully, sexually you're mine, you're my type
Right down to the letter
No matter what
Oh yeah
No matter what
I'ma be the thing that you need
No matter what
No matter what

Hopefully
By now you know that being with me, me and you, that's for the best now
Hopefully
When we get together, girl I'm hearing you make those yes sounds
Hopefully, hopefully, you'll be with me
Hopefully, hopefully, hopefully
You'll stay with me
Baby hopefully

Hopefully, hopefully, you'll love me, you'll stay with me
Hopefully, hopefully, you'll love me, you'll stay with me
Hopefully, hopefully, you'll love me, you'll stay with me
Hopefully, hopefully, you'll love me, you'll stay with me

Hopefully
By now you know that being with me, me and you, that's for the best now (that's for the best now)
Hopefully
When we get together, girl I'm hearing you make those yes sounds
Hopefully, hopefully, you'll be with me (hopefully, yeah)

Hopefully, hopefully, hopefully (girl hopefully)
You'll stay with me (you'll stay with me)
Baby hopefully
Hopefully
Baby forever you and me
Hopefully, hopefully
Baby forever you and me

No matter what
No matter what you're goin through
No matter what
I'll be right there for you
No matter what
No matter what you need
No matter what
Hopefully

Hopefully
By now you know that being with me, me and you, that's for the best now
Hopefully
When we get together, girl I'm hearing you make those yes sounds
Hopefully, hopefully, you'll be with me
Hopefully, hopefully, hopefully
You'll stay with me
Baby hopefully
