

Romeo

Jagged Edge

I wanna be your Romeo
Aside from being just the one that you really know
I wanna be your Superman in everything
But aside from it
That's the shit shes blessed with
I wanna be your Romeo
Aside from being just the one that you really know
You can call me for anything
You're trying to be like everything
That shes with me
I like a willow tree
Blowin' in the breeze
I might spray a bit
But girl I never leave
Its freaky what you want
I hit your spot
Just like that
I wanna be your Romeo
Aside from being just the one that you really know
I wanna be your Superman in everything
But aside from it
That's the shit shes blessed with
I wanna be your Romeo
Aside from being just the one that you really know
Like a wave on a summer day heat
Beauty can't describe
The things that I see
For everything I will be right here
Tryin' to make the home jealous
Cause its real
Girl I put it down
And if you're thinkin' what you want
Ill hit your spot just like that
I wanna be your Romeo
Aside from being just the one that you really know
I wanna be your Superman in everything
But aside from it
That's the shit shes blessed with
I wanna be your Romeo
Aside from being just the one that you really know
