

See Me Looking

Jagged Edge

Five-eight-one, uh-huh, mhm

Don't stop, you see me looking at you (Woo)
Just shake that thang like your back loose, back loose
I gotta get you in my mack room
But when I do, don't stop, just get it, get it, girl
Know you see me looking at you
Just shake that thang like your back loose, back loose
I gotta get you in my back room
But when I do, don't stop, just get it, get it, girl

Hey baby girl, don't disrespect it
You see me watching since our eyes connected
All your folks in line when they steady checkin'
"So what you doin', girl? Don't you see this pimpin'?"
I'll have the valet pull up right if you're ready
Phone check with your girls, kiss and hug 'em and tell 'em
"Tonight, I'm with J.E., so don't wait up, I'm warnin'
And I'll see y'all first thing early in the mornin'" (Mornin')

Don't stop, you see me looking at you (Woo)
Just shake that thang like your back loose, back loose
I gotta get you in my mack room
But when I do, don't stop, just get it, get it, girl
Know you see me looking at you
Just shake that thang like your back loose, back loose
I gotta get you in my back room
But when I do, don't stop, just get it, get it, girl

Girl, bring your body in, that's if you're partyin'
We don't want you if you gotta bring your guardian
Yeah, everybody in the club, they got somethin' in they cup
We just tryna live it up, tryna shake and shake and move
Kinda smooth, on the low in a black tee
You never see a nigga 'cause I'm takin' the back streets
But for now, let's just listen to this music
Get a little more drunk, girl, I'm 'bout to lose it

Don't stop, you see me looking at you (Woo)
Just shake that thang like your back loose, back loose
I gotta get you in my mack room
But when I do, don't stop, just get it, get it, girl
Know you see me looking at you
Just shake that thang like your back loose, back loose
I gotta get you in my back room
But when I do, don't stop, just get it, get it, girl

I'm sippin' 'gnac, sittin' back with a stack of that lethal
Totin' the toasters, movin' metal like Magneto
Up in the Stokers, we wide open like Ground Zero
It's Jagged Edge, Sosa and dapper Don Vito
Straight from Decatur, we labeled the hometown heroes
My composition got competition on pins and needles
You ain't stackin', you niggas actin' like Don Cheadle
The Black Mack is on a track with the Black Beatles
My pimp persona make 'em hop off in that coupe and ride
Fresh off the corner so I'm sippin' somethin' supersized

I know you see me lookin' at you out the corner of my eye
Super sexy, yeah, your silhouette is super fly

Don't stop looking - just turn around, baby
Let me see you shake it like your back broke to the ground, baby
Let me see that rhythm like you come from out of town, baby
Don't worry about later, uh-uh, just worry about now, yeah

Don't stop, you see me looking at you (Woo)
Just shake that thang like your back loose, back loose
I gotta get you in my mack room
But when I do, don't stop, just get it, get it, girl
Know you see me looking at you
Just shake that thang like your back loose, back loose
I gotta get you in my back room
But when I do, don't stop, just get it, get it, girl
