Turn U On

Jagged Edge

Move your body, yeah, your body, your body
I hope this song really does that trick
Way you move that body so slick

Hoping that this one day turns you on
And we can intertwine until the early morn
On, on, on, on, on, on, put you on

Hoping that this one day turns you on
And we can intertwine until the early morning
On, on, on, on, on, on, put you on, put you on

So ready for the world you say you want, it's okay
Try to turn you on and you don't even get a say
And baby, I need you in my bed
And I'm doing all I can, girl

Just to try to please you, baby
Oh, maybe even teach you, lady
Get your mind right tonight

I'm switching on my hard-drive
Searching you tonight
For my computer crush

Hoping that this one day turns you on
And we can intertwine until the early morn
On, on, on, on, on, on, put you on

Hoping that this one day turns you on
And we can intertwine until the early morning
On, on, on, on, on, on, put you on, put you on

Girl, it ain't no thing
If you're willing we can swing
I'm ready and willing, I'm ready and willing
And if you want it baby I'll let you feel it

See nothing is promised to you tonight
But baby girl, I know I'll freak you right
Yes, I can, can

I'll freak you right, I will
I'll freak you right, I will
I'll freak you like no other man
Has ever made you feel

Hoping that this one day turns you on
And we can intertwine until the early morn
On, on, on, on, on, on, put you on

Hoping that this one day turns you on
And we can intertwine until the early morning
On, on, on, on, on, on, put you on, put you on

Girl, I really know just what you need
Love that twelve songs of that new JE

Crazy me to think that I
Could let you leave my bedroom not tonight

Girl, I'll do it all
Just to turn you on
Girl, I'm 'bout it all
Just to turn you on
Just to turn you on

Hoping that this one day turns you on
And we can intertwine until the early morn
On, on, on, on, on, on, put you on

Hoping that this one day turns you on
And we can intertwine until the early morning
On, on, on, on, on, on, put you on, put you on
