

life is good

Jagwar Twin

Life is good
I'm great
Nether circle round the sun
The worlds in flames
But at least we're having fun

Hey kids I'll sing you a song
And it won't be very long
Some people tell me I'm strange
But I like living this way
Ah ah ah

La viva es buena
My life is great
My head's an antenna
I'm wide awake
La viva es buena
My life is great
But I'm mad
And I'm sad
And I'm misunderstood

Life is good
I'm great
Nether circle round the sun
The worlds in flames
But at least we're having fun
I'm good
I'm great
Nether circle round the sun
The worlds in flames
But at least we're having fun

Face down but I can feel my body moving
Is this real or am I in an illusion
Get up get up I'm only human
Pupils dilated like I'm bout to lose it
So crazy so I turn off the news
Living in a lie and we can't see the truth
Every one fighting tell me which side are you
Keep a smile on my face, too happy to choose

Life is good
I'm great
Nether circle round the sun
The worlds in flames
But at least we're having fun
I'm good
I'm great
Nether circle round the sun
The worlds in flames
But at least we're having fun

But at least we're having fun
But at least we're having fun
