

## Stronger (Scriptures Riddim)

Jah Cure

I've tried a life time to find you  
Give me a moment just to remind you  
Of the love we've not made before  
The reason you can't close this door  
I see confusion in your eye  
And maybe your a little surprised  
The way we make love under the moon light  
Tomorrow you'll see the new light

Come away in a dream  
This world is not what it seems  
There be no gold on the end of the rainbow  
Birds don't fly anywhere that the wind blow

Come away in a dream  
Life is not what is seem  
Happiness don't always live forever  
But my love is getting stronger everyday  
Stronger everyday

They tell me that diamonds are your friends  
But diamonds won't be there in the end  
I give you my love to remember  
I keep you happier, happier, happier  
You should be mi bonefy  
Nothing in this world can justify  
Love inna yo heart for I and I  
It's You and I, You and I baby  
Maybe it's just faith  
A time wi simply be waiting  
Is a chance to practice together  
We can go in search of forever
