

# Backtight

Jaheim

Yeaah aw  
Looking back at all I put you through  
Too much of a thug nigga to tell you I love you  
I know I made mistakes  
Here hoping and prayin that it ain't too late  
Thought I had my game tight  
Thought I had it locked down, knowing shit wasn't right  
Now you wanna blow  
Before I let you go  
Something you just gotta know

Ain't nothing stopping me from getting backtight with you  
Go head and trip you got the right to  
If I gotta roll up my sleeves and fight for you  
I'll stand outside in the rain all night for you

Ain't nothing stopping me from getting backtight with you  
Go head and trip you got the right to  
If I gotta roll up my sleeves and fight for you  
I'll stand outside in the rain all night

Three months three weeks two days it's the same shit  
Shorty she ain't haven't it  
Back then I wasn't serious  
Makin so much paper kept me curious  
Chickens cluckin everywhere...I didn't care  
Thinking to myself that you'd always be here  
Instead of makin love to you lady  
I would rather be out pushin my Mercedes

If the sun was to fall and the stars was to lose their shine  
I'd be content with it all as long as your by my side...girl  
Through the good through the bad through it all gonna need your  
back  
I'll always be with you just wanna please you
