

## Come Over

Jaheim

Stepped up in the club

You were standing at the bar,  
saw you from the back  
Legs straight bangin and that ass is phat  
(something) on your body girl, i fucks with that  
I'm the type of cat,  
I know what i like  
See you the type of lady i'll take home and wife  
So won't you go grab your coat get your bag  
I'll be in the parking lot chilling with the roof back
