First Time

Jaheim

Pretty girl pretty soon I'll be trying to get your pretty ass
Hold your pretty girl swag
Pretty bad girl you know what pretty baby got
It's getting pretty late that's a pretty lingerie
You should go and get changed

If you said it I may never have it
If you touched it baby that was practice...
Like you're losing your virginity
Never did it average
Private baking treated as your status
Cause someone stay putting you all to infinity
Swear you're like you're losing your virginity

You don't wanna be the first one.
Oh please, I wanna be the very first one
Imma bend you like, like, that you like, like
With the first that rule your passport
The touch screen under your passport
Ain't no problem baby, I promise that I got you

If you said it I may never have it
If you touched it baby that was practice...
Like you're losing your virginity
Never did it average
Private baking treated as your status
Cause someone stay putting you all to infinity
Swear you're like you're losing your virginity
First time for love
Oh baby there's a first time for love

First time flight with no connection
The first time making love like a...
Everything you like, like, like, you like, like
And Imma be like I was your first
Make you scream with me like I was your first
Help you bottle your bottom leg like it hurts
Gonna leave you with memories
Like I took your virginity

If you said it I may never have it
If you touched it baby that was practice...
Like you're losing your virginity
Never did it average
Private baking treated as your status
Cause someone stay putting you all to infinity
Swear you're like you're losing your virginity

Pop, pop the cork sipping champagne
And you like...
It's like we're living with the limits gone
...from a jet ski
Turn around let me see you God's creature

If you said it I may never have it
If you touched it baby that was practice...
Like you're losing your virginity

Never did it average
Private baking treated as your status
Cause someone stay putting you all to infinity
Swear you're like you're losing your virginity
First time for love, there's a first time for love
First time for love, your first time for love
