

King Of The Crop

JAHKOY

Yous a hot girl
Make me wanna stop, drop
Baby gimme some
I don't need a lot, lot
Just a hoodlum
I circle the block, block
I'm the king of the crop, crop
Got a price on my head
But I'm priceless
And on a nice level baby
I'm the nicest
I'll be your knight in shining armor
Through the crisis
Get you through the pain
Through the day or the night shift

What about me, what about us?
All the static from before
What about now, what about when
What about when I need you more
What about you, what about me?
Everything we built up this far
Don't tell me it wasn't real
Girl I felt it in my heart

I met this girl around the way and
She said we should probably stay in
She took the uber from Brampton
Leaning back thats when I leaned in
Shorty make her own paper
Right away became my favourite
Little mama don't do favours
She don't even dream with the chasers
Still I chase her
It's hard to keep distance from what I need
I'll catch your fall baby help you spring
If nobody else is you know it's me
You know you're my Naid

What about me, what about us?
All the static from before (From before)
What about now, what about when
What about when I need you more (when I need you more)
What about you, what about me?
Everything we built up this far
(Everything we built up til this moment right here)
Don't tell me it wasn't real
Girl I felt it in my heart
(Felt it in my heart)

I know I didn't play it smart
I know I didn't play it smart
I played it with my heart
(My heart)
I know I didn't play it smart
I know I didn't play it smart
I played it with my heart

(My heart) My heart
