

Same Energy

JAHKOY

Finally moved on that's what my heart decided
What I been doing with you, don't want to talk about it
Plus I got my money now
Foreign cars I'm driving
Diamonds, buss down watches
Everything came right timing

You want it all back
I seen your text full of regrets
And I send a text back like
I wish you the best

I know you wish you stayed down (Stayed down)
You coulda had it all, if you stayed down (Stayed down)
But then again, I coulda lost it all if you stuck around
Obviously you wasn't that in to me
So keep the same energy

One in a million
You know you fumbled a real one
Just take your loses and peel off (skrrr)
Why we still talking I been done
Yeah back to the true me
You ain't know my life is like a movie
Part 2 woulda been you and me
But now my heart colder than 2 degrees
I guess my heartbroken, it's cool to see

You want it all back
I seen your text full of regrets
And I send a text back like
I wish you the best

I know you wish you stayed down (Stayed down)
You coulda had it all, if you stayed down (Stayed down)
But then again, I coulda lost it all if you stuck around
Obviously you wasn't that in to me
So keep the same energy

I know you wish you stayed down (Stayed down)
You coulda had it all, if you stayed down (Stayed down)
But then again, I coulda lost it all if you stuck around
Obviously you wasn't that in to me
So keep the same energy

Part 2 woulda been you and me
Woulda been you, you, you and me
Woulda been you, you, you, you and me
Part 2 woulda been you and me
Part 2 woulda been you and me
