

Just remember what you said to me

Where the heart lays  
The heart lies, even hard times  
I don't know if I can be apart of it  
Thinking bout the things I said  
And how I let you walk away, walk away  
Settling never been my first choice  
(First choice)  
But the way I'm looking at you with my boys  
I'm telling em how I want you  
(I want you bad)  
Put that pussy on my sideburns  
I been tryna play the field  
Let me pay a bill, let me do the work  
Cause its different now  
I said I'm good without you  
But its different now  
I can't help the way I feel about you now  
So different, so different, so different  
Way I'm gripping on that ass ou yeah

I'ma make you stu stu stu stu stu stutter  
Stutter, I make you stutter  
I'ma make you stu stu stu stu stu stutter (my my mine)  
Stutter, I make you stutter

When I kiss between your legs  
Make you stu-stu-stutter  
Started pulling on your hair  
While I give you this thunder  
And you screaming, you screaming  
Got you screaming girl  
And you got me fiending  
Me fiending, me fiending girl  
I'm fucking you like a demon  
A demon on demon time  
Now bend it over, poke it out  
Girl its semen time  
But before I get my girl  
I'm about to make your body stutter (stutter)  
And if I don't pull out  
Girl you bout to be my baby mama  
I'm a make you stutter

I'ma make you stu stu stu stu stu stutter  
Stutter, I'll make you stutter (yeah yeah yeah)  
I'ma make you stu stu stu stu stu stutter (when I'm all between your thighs)  
(Baby yeah) (Stu-stutter baby)  
Stutter, I'll make you stutter (stutter baby stutter baby, st-stutter baby)  
I'ma make you stu stu stu stu stu stutter (ohhh)  
Stutter, I'll make you stutter (That's what I do)  
I'ma make you stu stu stu stu stu stutter (I'ma make you)  
Stutter, I'll make you stutter (Baby)  
(Baby)
