

The Nights We Won't Remember

Jai Waetford

No one looks back on life and remembers
The time they got plenty of sleep
But we'll be the ones to bring all the madness
Gives credits to you and to me

Maybe when earth collides
We will be by her side
Baby just you and I
Just you and I

Here's to the nights we won't remember
To you girl, I'll be the one to surrender
Here's to the nights we won't remember
To you girl, I'll be the one to surrender

Someone once told me that
Bad decisions make for the best memories
So how 'bout tonight we go
And run free, together you and me

Maybe when earth collides
We will be by her side
Baby just you and I
Just you and I

Here's to the nights we won't remember
To you girl, I'll be the one to surrender
Here's to the nights we won't remember
To you girl, I'll be the one to surrender
Here's to the nights we won't remember
To you girl, I'll be the one to surrender
Here's to the nights we won't remember
To you girl, I'll be the one to surrender
