

# Lost

Jai Wolf

You're the mouth of the tunnel just before the dark  
I'm the headlights speeding through the stars  
And we're lost in the spaces of who we are  
And we move through the nights 'till we take it too far

Hold it together when we move apart  
Let the landscape burn like a dying art  
Driven by the energy in our hearts  
We were built to be reckless from the start

And the light just flickers past our faces  
Living in a dream 'cause we're always wasted  
Never stay still when we're chasing places

And the light just flickers past our faces  
Living at a dream 'cause we're always wasted  
Making up our minds that we're never changing

'Cause we're getting lost and found when we're carried away  
I feel it all around, even in our mistakes  
And when we're up, we're down, in the evening space  
We're getting lost and found, when we're carried away

When we're carried away

The truth gets tired when we lie awake  
So we dive into dreams that they can't sedate  
Breathe in and out, to go all the way  
Trip 'till we're fixed in a higher state

And the light just flickers past our faces  
Living in a dream 'cause we're always wasted  
Never stay still when we're chasing places

And the light just flickers past our faces  
Living at a dream 'cause we're always wasted  
Making up our minds that we're never changing

'Cause we're getting lost and found when we're carried away  
I feel it all around, even in our mistakes  
And when we're up, we're down, in the evening space  
We're getting lost and found, when we're carried away

Carry me, Carry me  
Carry me, Carry me  
Carry me, Carry me

And the light just flickers past our faces  
We're living out a dream 'cause we're always wasted  
And the light just flickers past our faces  
We never stay still when we're chasing places

'Cause we're getting lost and found when we're carried away  
I feel it all around even in our mistakes  
And when we're up, we're down, in the evening space  
We're getting lost and found when we're carried away

Carry me, Carry me  
Carry me, Carry me  
Carry me, Carry me
