

Red Eye

Jai Wolf

Drive me around
Your favorite place
Show me your doubt
Before either gets too late
Street lights fading
Play me your favorite song again
Memories fading

I'm learning how to love
Getting hard to let go
But the song brings me back to you
Trying not to let it show
Some days an uphill road and
Sunny days can still feel cold
Inside my mind

Wish I had loved you
When I was supposed to
I'm on the red eye home
I know I'm not the one
Yeah I know I'm not the one

All that we've been through
I'll never forget you
I'm on the red eye home
I know I'm not the one
Yeah I know I'm not the one

You never could leave
Your hours and days
The taste of the sea
The friends that always hold you
But I never make you choose

I'm learning how to love
Getting hard to let go
But the song brings me back to you
Trying not to let it show
Some days an uphill road and
Sunny days can still feel cold
Inside my mind

Wish I had loved you
When I was supposed to
I'm on the red eye home
I know I'm not the one
Yeah I know I'm not the one

All that we've been through
I'll never forget you
I'm on the red eye home
I know I'm not the one
Yeah I know I'm not the one

Wish I had loved you

Wish I had loved you

When I was supposed to
I'm on the red eye home
I know I'm not the one
Yeah I know I'm not the one

Play me your favorite song again
Play me your favorite song again
