

## Abu Dhabi

Jain

Pushing the limits of music from the inside  
Arabic sound is driving my mind  
The first time I walked down into your town  
A new kind of music has blessed my soul

And the sun is so bright  
All I need is to hide  
In the shadows of your walls  
I wanted to see it all

Move back there, so I could move on  
I'm taking all I can from the desert sound  
Move back there, so I could move on  
I'm taking all I can from the desert land  
Move back there, so I could move on  
I'm taking all I can from the desert sound  
Move back there, so I could move on  
I'm taking all I can from the desert lands

I miss the day your song raise me up  
And the way you dance and the way you move  
I found true love back on the road  
I never thought I could learn this much from you

And between your dunes  
And under your moon  
Your voice came through  
Straight into my soul

Move back there, so I could move on  
I'm taking all I can from the desert sound  
Move back there, so I could move on  
I'm taking all I can from the desert land  
Move back there, so I could move on  
I'm taking all I can from the desert sound  
Move back there, so I could move on  
I'm taking all I can from the desert lands

Move back there, so I could move on  
I'm taking all I can from the desert sound  
Move back there, so I could move on  
I'm taking all I can from the desert land  
Move back there, so I could move on  
I'm taking all I can from the desert sound  
Move back there, so I could move on  
I'm taking all I can from the desert lands
