

Feel It

Jain

(You've got to feel it)
(You've got to feel it)

It's all in the air
All over your smile
Right in your eyes
It's all in the light
Far from despise
Right in your arms

Oh, when we'll be free
When we'll stop hating
And respect ourselves
Oh, I want some love
None of your lies

Feel it
You gotta fill it in your mind
You gotta feel it
You gotta feel it in your soul
You gotta feel it
You gotta feel it in your life
And I just got the feeling
Feel it
You gotta fill it in your mind
You gotta feel it
You gotta feel it in your soul
You gotta feel it
You gotta feel it in your life
And I just got the feeling

It's all in the air
All over your flesh
Right in your heart
It's all in the light
None for the pride
Right in yourself

Oh, when we'll be free
Far from the rage and
Out of this cage
Oh, when we'll be free
When we won't be
Our worst enemies

Feel it
You gotta fill it in your mind
You gotta feel it
You gotta feel it in your soul
You gotta feel it
You gotta feel it in your life
And I just got the feeling
Feel it
You gotta fill it in your mind
You gotta feel it
You gotta feel it in your soul
You gotta feel it

You gotta feel it in your life
And I just got the feeling

I feel alright and I feel just fine...
