

Wake up in the morning just in coffee, life seems only so easy  
I'm just confused between my dreams and your reality  
Wake up in the morning just want to see your free face is looking at  
me  
I am the same I have not changed I'm just growing up

I, I'm just thinking about you  
You just change my life for good  
Now it's time for me to thank you  
And to see that I love you baby  
I, I'm here for you anytime  
If you need me you know where I am  
I'll be by your side all the time  
Glad to see that I love you baby

Lying on my bed I just want to hold  
Some of our past that past so fast  
I couldn't see it, I couldn't catch it  
But our story is not finished

Lying on my bed I just feel like  
We have seen in the same country  
Still your bad joke, still you with love  
So I miss you girls, girls

Ladies, lady, lady, ladies only you can say that you know me  
Ladies, lady, lady, ladies only you can say that you know me  
Let any oh, let any ay, let any oh, lady d Jayd Jayd Jay  
Let any ay, let any oh, let any ay, lady d Jayd Jayd Jay

I, I'm just thinking about you  
You just change my life for good  
Now it's time for me to thank you  
And to see that I love you baby

I, I'm here for you anytime  
If you need me you know where I am  
I'll be by your side all time  
Glad to see that I love you baby

Wake up in the morning playing games you always win  
Make you think you're getting at me  
Wake up in the morning I'm just smiling at everything  
Life is full I get what you gave to me

I, I'm just thinking about you  
You just change my life for good  
Now it's time for me to thank you  
And to see that I love you baby
