

# Hope

Jain

Try to give hope around, try to give hope in a raw,  
Try to make it better, better together

Every day, every time there's the street and here we are,  
We the people, make the world and look how it's going down,  
So we walk into our lives,  
No one look deep in the eyes,  
Except you, take my smile,  
That's the only thing I have,

I hope you're fine, I hope you're great,  
I hope you're not alone in this town,  
I hope you have good friends to talk,  
I hope you will soon find a job,  
And now you smile right back at me,  
You see that is what I need,  
Love and hope can get for free,  
I'm gonna need it, yes I'm gonna use it,  
I'm gonna need it, yes I'm gonna use it

Try to give hope around, try to give hope in a raw,  
Try to make it better, better together

You have dreams, to many, in a depressed society,  
For my health, I've to rest,  
I've to stop watching TV  
I go outside, I walk some more,  
To see what is next to me,  
And I saw you and then I knew,  
How a smile can give some peace

I hope you love, I hope your strong  
I hope you will not get it wrong,  
Stop your bullshit they make weak,  
Life is hard but it's unique,  
I'm gonna need it, yes I'm gonna use it,  
I'm gonna need it, yes I'm gonna use it

Try to give hope around, try to give hope in a raw,  
Try to make it better, better together
