

Save The World

Jain

Jupiter calling on the telephone
Mars picks up, says, "Yeah" (Yeah)
What on earth seems to be the problem?
Crazy blue ball spinning

I want to
Save the world with you
I want to
Save the world with you

She wakes, bad headlines
Mars is out of water (Oh)
Stop, think, Jupiter
You've got to get yourself together (Woo)

Human race up in space looking 'round
Money swirl turned the world upside down
Shake it, baby, shake it, shake system sound
Keep it safe just in case it all goes "pow"

I want to (I really want to)
Save the world with you (I really, really want to)
I want to (I really want to)
Save the world with you (I really, really want to)

Get back, get back on the groove now
Get back, get back on the moon, yeah
Get back, get back on the groove now
Get back, get back on the moon, yeah
Get back, get back on the groove now
Get back, get back on the moon, yeah
Get back, get back on the groove now
Get back, get back on the moon, yeah

I want to (I really want to)
Save the world with you (I really, really want to)
I want to (I really want to)
Make a world with you (I really, really want to)
I want to (I really want to)
Get back into the groove (I really, really want to)
I want to (I really want to)
Do all that we can do (I really, really, really want to)

Get back on the, get back on the moon, yeah
Get back, get, get back on the groove now
Get back on, get back on the groove
I really, I really, I really, really, really want
