

# The Balance

Jain

Try to find the balance, try to find it  
Try to find the balance, try to find it

Try to find the balance, but I don't find it  
'Cause I care too much all about myself  
Try to find the balance between love and hate  
But when I watch the news, it's only bad news

I never knew (Try to find the balance, try to find it)  
How to do (Try to find the balance, try to find it)  
I never knew (I try to find the balance, try to find it)  
How to do

Try to find the balance, try to find it  
Try to find the balance, try to find it

Try to push myself from ups to downs (Try to find the balance, try to find it)  
But the room's too big, I can feel it all (Try to find the balance, try to find it)  
Gotta heal myself from what I've heard (Try to find the balance, try to find it)  
But nobody tells me how to do exactly (Try to find the balance, try to find it)

I never knew (Try to find the balance, try to find it)  
How to do (Try to find the balance, try to find it)  
I never knew (I try to find the balance, try to find it)  
How to do  
And I never knew (I try to find the balance, try to find it)  
How to do (Try to find the balance, try to find it)  
I never knew (I try to find the balance, try to find it)  
How to do

If I make  
One step  
You'll do the next  
So meet me in the middle  
If I make  
One step  
You'll do the next  
So meet me in the middle

I never knew (Try to find the balance, try to find it)  
How to do (Try to find the balance, try to find it)  
I never knew (I try to find the balance, try to find it)  
How to do  
And I never knew (Try to find the balance, try to find it)  
How to do (Try to find the balance, try to find it)  
I never knew (I try to find the balance, try to find it)  
How to do

Try to find the balance, try to find it  
Try to find the balance, try to find it
