

To All The People

Jain

Living in a world where we don't stand a chance
Kids are warning, but only few can hear
It's easier to put the blame on someone else
While we're walking on a fiery land
Your land, my land

To all the people who heal the world
To all the people
To all the lovers in this world
One for all (One for all)
To all the people who heal the world
You're not alone
To all the voiceless screamers
All for one

I put my trust in the hands of the dreamers
For too long, we didn't care
They make us believe there's only two choices
Be the arrow or be the target
But what if we are the air?

To all the people who heal the world
To all the people
To all the lovers in this world
One for all (One for all)
To all the people who heal the world
You're not alone
To all the voiceless screamers
All for one
