

This Time Around

Jaira Burns

Hard to feed my appetite
I've been this way all my life

But sometimes I get tired of being crazy
This feels good
So maybe, just maybe

You could be the one to make me stay, stay
Stay this time
You could be the one to make me change, change
Change my mind
I always run every time I fall in love, but
You could be the one to make me stay, stay
Stay this time around
Stay this time around

I've been pulling all the strings
Doing nice things
I've been takin' off my clothes
Always scared of getting close

But sometimes I get tired of being crazy
This feels good
So maybe, just maybe

You could be the one to make me stay, stay
Stay this time
You could be the one to make me change, change
Change my mind
I always run every time I fall in love, but
You could be the one to make me stay, stay
Stay this time around
Stay this time around
(Maybe this time, maybe this time)
(Maybe this time, maybe this time)

I'm reckless and wild
Been this way for a while
I don't want someone now
Holding me down
I'm reckless and wild
Been this way for a while
I don't want someone now
Holding me down

You could be the one to make me stay, stay
Stay this time
You could be the one to make me change, change
Change my mind
I always run every time I fall in love, but
You could be the one to make me stay, stay
Stay this time around
Stay this time around
(Maybe this time, maybe this time)
(Maybe this time, maybe this time)

Stay this time around

I always run every time I fall in love, but
You could be the one to make me stay, stay
Stay this time around
