

Baby Blue

Jakalope

Wake me up from this dream, hold me closer before I start to scream.

I'm like you and you're like me, you can only go so far before you start to bleed.

Baby Blue, baby breath. Baby pull through and come on back to me. Come on back to me.

I hear you call but I'm asleep, I leave you helpless drowning in the reeds.

Baby Blue, baby breath. Baby pull through and come on back to me.

You took away, all that was me, all that I gave to you it once belonged to me.

Baby Blue, baby breath. Baby pull through and come on back to me.
