

Forever Can Wait

Jake Banfield

Wish we could hold back the morning
Break free from this gravity
Keep the pen in our hands and keep writing the story
There's still so much I wanna read

They say nothing lasts forever
I say forever can wait
Let's hold this moment together
Long as our arms can take
Forever can wait
Forever can wait
Forever can wait

You don't usually
Know that something's meant to be
Until the moment has passed
That's why I don't wanna move
A second less would be too soon
Somehow we found perfection in our grasp

They say nothing lasts forever
I say forever can wait
Let's hold this moment together
Long as our arms can take
Forever can wait
Forever can wait
Forever can wait

Maybe it's meant for a moment
So, I'm gonna be here right now
And we can pretend we're just waves in the ocean
Or stars that won't ever burn out

They say nothing lasts forever
I say forever can wait
Let's hold this moment together
Long as our arms can take
Forever can wait
Forever can wait
Forever can wait

They say nothing lasts forever
I say forever can wait
Let's hold this moment together
Long as our arms can take
Forever can wait
