

Lasso

Jake Banfield

Wild horse out the gate
Made her way downtown
Yeah your heart about to break
But you gon' buy another round
Round and around she go
You might need a little more rope
If you wanna take her back home tonight, ooh
Cause she got that

Black boots with the red lips
Sipping on claw while she kissing on me
Wild child with the southern belle style
Kinda girl you only see in your dreams
She the type of woman that gon' make you lose control
Yeah, she something wild you might need a lasso

Lasso
Bring it in
Throw it out
Spin around
Like a lasso
Bring it in
Throw it out
Spin around
Like a lasso
Bring it in
Throw it out
Spin around
Like a lasso
Bring it in
Throw it out
Spin around
Like a lasso

Like a thief in the night
She'll be gone with the wind
That's the thing about a mustang
You ain't never taming 'em
Big bounty on her head
For all the cowboys left dead
Wanted everywhere out west
Cause the way she filling out that dress with them

Black boots with the red lips
Sipping on claw while she kissing on me
Wild child with the southern belle style
Kinda girl you only see in your dreams
She the type of woman that gon' make you lose control
Yeah, she something wild you might need a lasso

Lasso
Bring it in
Throw it out
Spin around
Like a lasso
Bring it in
Throw it out

Spin around
Like a lasso
Bring it in
Throw it out
Spin around
Like a lasso
Bring it in
Throw it out
Spin around
Like a lasso
