

## What We Started

Jake Banfield

We didn't know what we started  
Mmm, what we started  
We didn't know what we started  
Mmm, what we started

Pour another  
Light me up  
This kinda feeling, yeah, it's all I want  
Until it's over  
Push our luck  
We're leaning in until the lights come up  
Yeah, we both knew  
When I saw you

Chasing the time of your life  
You had that look in your eyes  
That said you'll stay out all night till the morning  
So now we're following this  
And running over the edge, now we're falling

We didn't know what we started  
Mmm, what we started  
We didn't know what we started

Keep 'em coming  
Never stop  
I'm saying things I never told no one damn  
And if this is  
All we got  
We'll keep on sipping till the last drop

Chasing the time of your life  
You had that look in your eyes  
That said you'll stay out all night till the morning  
So now we're following this  
And running over the edge, now we're falling

We didn't know what we started  
Mmm, what we started  
We didn't know what we started  
We didn't know what we started

We didn't know what we started  
Mmm, what we started  
We didn't know what we started  
Mmm, what we started
