

# I See Her Crying

Jake Bugg

I see her crying under that sycamore tree  
I don't know if she's crying because of me  
She's the one  
She's the one for me

The amount of times my heart has wept for you  
But now I see you crying, I don't know what to do  
But now I feel bad  
And it makes me feel sad

I see her crying and I don't know if I could  
But if I knew how, I surely would, baby  
My mind is always set on you  
And I would do it if I knew what to do, baby

Your tears fall down and make an ocean floor  
But when I have to leave, please don't close the door  
Because I need you there  
Need you there for me

I see her crying and I don't know if I could  
But if I knew how, I surely would, baby  
My mind is always set on you  
And I would do it if I knew what to do, baby
