

# Rabbit Hole

Jake Bugg

I  
Feel like gettin' high  
Meet me on the corner  
No, I won't be long, yeah  
On the other side

Tonight  
Gonna get out of my mind  
Make me something strong, yeah  
Act like nothing's wrong, yeah  
Just to get me by

And castle magic  
It's all in my head

I'm one knee down the rabbit hole  
I think I've done it all  
How can I convince myself  
That it's all in my head?

Can you taste  
The colours on her face?  
Everybody feels nice  
Bathin' in the sunshine  
And burnin' in the rays

And castle magic  
It's all in my head

I'm one knee down the rabbit hole  
I think I've done it all  
How can I convince myself  
That it's all in my head?

I'm not trying to escape  
I am happy to stay  
How long will it take?  
Before the rain comes in

I'm one knee down the rabbit hole  
I think I've done it all  
How can I convince myself  
That it's all in my head?

I'm one knee down the rabbit hole  
I think I've done it all  
How can I convince myself  
That it's all in my head?
