

# Someplace

Jake Bugg

It goes like the clouds  
It floats like the sky  
I want to go someplace and find you there.

Don't go away  
I need you to stay  
I want to go someplace and find you there.

And, yes, you just run to him  
And I'll be down on my knees begging you,  
Begging you: Don't! I love you.

I saw through your lies  
I saw through your disguise  
I want to go someplace and find you there.

And, yes, you just run to him  
And I'll be down on my knees begging you,  
Begging you: Don't! I love you.

Don't go away,  
I need you to stay.  
I want to go someplace and find you there!  
I want to go someplace and find you there.
