

Something Wrong

Jake Bugg

Oh when you choose
When I'll go I'll sing the blues
But don't you know that something's wrong with me.

Oh when you go
When I'll sing I'll let you know
That something's wrong with me.

Oh if you knew
That what I sing I sing for you
You know it's true
My love.

Go with the night
See your face in the moonlight
But don't you know that nothing's wrong with me.

Dream like you do
When I'll dream I'll dream with you
But don't you know that nothing's wrong with me.

Oh if you knew
That what I sing I sing for you
You know it's true
My love. [x2]

Oh when you go
When I'll sing I'll let you know
That something's wrong with me.
