

The One I Never Knew

Jake Bugg

All the girls I've ever known
Have something about you
You don't believe the things I say
Even when they're true
But girl I'm telling you that you're something else
And I mean the things I say

I hope one day you'll realise
What you're in my eyes
All the words I say are true
No, I don't tell lies
But girl I'm telling you that you're something else
And I mean the things I say

Haven't known you long
Still wrote you this song
And I sing words so true
That I sing, that I sing, for you

All the girls I've ever known
Have something about you
You don't believe the things I say
Even when they're true
But girl I'm telling you that you're something else
And I mean the things I say

Haven't known you long
Still wrote you this song
And I sing words so true
That I sing, that I sing, for you
