

Mini You

Jake Miller

That smile, those lips
I could never get sick of it
Your eyes, pure bliss
Thinkin', what if
I could have more of it?
Cause I've been daydreamin' about this

Kinda hard to believe 1day2willbe3
And I can't stop wondering

If she'll have your
Brown eyes that change in the sun
Or the blonde hair you had when you were young
She'll be perfect if she's anything like you
Cause then she'll be a
Strong girl that never likes to lose
With a big heart who always tells the truth
And she'll call you her world just like I do
Oh I can't wait to meet the mini you
I can't wait to meet the mini you
And I can't wait to see you

Teach her how to kick soccer ball
How to fall in love, how to not give up, how to stay standing t
all
Even if she's 5'2, just like you mmm
And times gonna fly and we'll wish we could stop it
We'll probably blink and she'll be off at college
So let's cherish every minute
Cause we don't wanna miss it

Kinda hard to believe 1day2willbe3
And I can't stop wondering

If she'll have your
Brown eyes that change in the sun
Or the blonde hair you had when you were young
She'll be perfect if she's anything like you
Cause then she'll be a
Strong girl that never likes to lose
With a big heart who always tells the truth
And she'll call you her world just like I do
Oh I can't wait to meet the mini you
I can't wait to meet the mini you
Oh I can't wait to meet the mini you
