

Moonwalkin

Jake Miller

Moonwalking, moonwalking yeah
Okay, okay yeah

Floating on a dream yeah
A fantasy yeah
Immaculate vibes can you feel this energy yeah
'Cause you got me seeing stars (ooh)
No matter where we are

You, you, you shine like city lights aye
Like super bright aye
Losing track of time burning through these summer nights aye
With the world beneath our feet
(Ooh)
There's no where I'd rather be

'Cause it's just you and me
Paradise
Levitating like satellites
Yeah, and I don't wanna come back down

It feels like we are moonwalking
It feels like we are moonwalking yeah
I'm falling for you at light speed
What a world sundress and some Nikes
It feels like we are moonwalking
It feels like we are moonwalking yeah
Stardust in our bloodstream
Pretty, pretty world sundress and some Nikes

Aye, ooh, yeah
And I could spend a thousand years
Swimming through your atmosphere
Mm, yeah
What everybody's looking for
I feel like I found it here
'Cause you so divine
You blow my mind
Those eyes they get me every time

It's just you and me
Paradise
Levitating like satellites
Yeah, and I don't wanna come back down

It feels like we are moonwalking
It feels like we are moonwalking yeah
I'm falling for you at light speed
What a world sundress and some Nikes
It feels like we are moonwalking
It feels like we are moonwalking yeah
Stardust in our bloodstream
Pretty, pretty world sundress and some Nikes
