

Fool Like Me

Jake Owen

You gave me all your heart could give
And I gave nothin' in return
I struck the spot that lit the flame
And then I watched it burn
And now you say with him is where you wanna be, mhm
Took a man to keep you, but to lose you took a fool like me

Lovin' you should've been an easy thing
But here I am alone
I took for granted, hell, I took everything
And never noticed you were gone
Oh, and when you washed your hands, they sure came clean, mhm
Took a man to keep you, but to lose you took a fool like me

Whoever said a fool is blind and won't ever see
Well, they ain't ever met the kind of fool like me

Now when I see you on the street
All wrapped up on his arm
You won't even look my way
You're too caught up in his charm
I'll remember when I, I swept you off your feet, mhm
Took a man to keep you, but to lose you took a fool like me

I guess it took a man to keep you, but to lose you took a fool
like me
