Ghosts

Jake Owen

He said he had to stop, he hadn't had a drop of anything
Stronger than coffee in 10 months 3 weeks and 1 long day
He pushed away his plate and said, it's better late then never done
When it comes to gettin' right, it took a while but I saw the light

He said, some things, they cast long shadows
That I never will out run and everyday I spend a-livin'

The ghosts of all the things that I've done wrong
Grab a chair 'cause the list is long
I can write you a country song
About the reasons I'll be going home

To a house full of memories
Things I wish I done differently
When I'm feeling weak, they keep me strong
The ghosts of all the things that I've done wrong

He said, there's a spot of paint
And it just ain't the right shade
But it covers up the hole I've made
Where I broke my wrist the night she left

And there's a lot of friends
That I ain't never seen in a lot of years
Some are still hangin' 'round
In old pictures I just can't take down

He said some things
They cast long shadows
That I never will out run
And everyday I do battle

With the ghosts of all the things I've done wrong
Grab a chair 'cause the list is long
I can write you a country song
About the reasons I'll be going home

To a house full of memories
Things I wish I done differently
And when I'm feeling weak, they keep me strong
The ghosts of all the things that I've done wrong

I got a heart full of memories
Things I wish I'd done differently
And when I'm feeling weak, they keep me strong
The ghosts of all the things I've done wrong

He said he had to stop
He hadn't had a drop of anything
Stronger than coffee in 10 months 3 weeks
And 1 long day
