

# Hope Less

Jake Owen

Girl, here we are  
What you wanna do  
No, I ain't givin' in or givin' up on me and you  
You got one foot in  
And one out the door  
Baby, how can I be someone that I've never been before

You hoped I'd get out of them bars  
I'd cold turkey them smokes  
Cut back on the long cut  
Be just what you hoped  
Hoped I'd quit playing in a band  
Grow up, put one on your hand  
But I'm still singing and drinking  
No more, but I ain't drinking no less  
Guess I'm hopeless  
Just let me let you let me go  
Or baby, just hope less

You wanna settle me down  
Why baby why  
That's like trying to break a Bronco  
That wasn't meant to ride  
Now everything  
That you wanna change  
Ain't that what made you fall in love with me  
Made you feel that way

You hoped I'd get out of them bars  
I'd cold turkey them smokes  
Cut back on the long cut  
Be just what you hoped  
Hoped I'd quit playing in a band  
Grow up, put one on your hand  
But I'm still singing and drinking  
No more, but I ain't drinking no less  
Guess I'm hopeless  
Just let me let you let me go  
Or baby, just hope less

We used to shut down the bars  
You'd bum on my cigarettes  
Come to think of it now  
Ain't that how we met  
You got on stage with my band  
I loved the way that you danced  
We were singing drinking  
I was thinking that I had no chance  
Now we got no chance  
Just let me let you let me go  
Or baby, just hope less
