

# Surefire Feeling

Jake Owen

A girl like you ain't a dime of dozen  
A man like me knows that  
One look in your eyes is like a one way ticket  
And I'm ain't coming back

We can play it safe, or we can ditch this place  
Leave em all in the dust  
Let's get off like this and be my stone cold summer  
Hop on in the truck

Let's go, let's leave  
There's a whole wide world for our eyes to see  
Just roll, with me  
Cuz there ain't now doubt this is meant to be

I pick you up on a corner of a now and never  
We can run all the red lights down forever  
Got a tank filled up with gasoline  
And a surefire feeling about you and me

Let's pick a road up off the highway  
We can see how far it goes  
We'll kick your seat on back, and put your feet on the dash  
Turn on some Rock N' Roll

We ain't got no destination  
No place we've gotta be  
Ya, I was thinking we could get off the map  
C'mon get lost to me

Let's go, let's leave  
There's a whole wide world for our eyes to see  
Just roll, with me  
Cuz there ain't now doubt this is meant to be

I pick you up on a corner of a now and never  
We can run all the red lights down forever  
Got a tank filled up with gasoline  
And a surefire feeling about you and me

You and me girl  
You and me baby

Feelings ain't for thinking about  
But I think this feels right  
This thing we got going babe  
Let's light this sky on fire

Let's go, let's leave  
There's a whole wide world for our eyes to see  
Just roll, with me  
Cuz there ain't now doubt this is meant to be

I pick you up on a corner of a now and never  
We can run all the red lights down forever  
Got a tank filled up with gasoline  
And a surefire feeling about you and me

You and me ya  
Oh, just you and me girl  
You and me ya  
Baby, just me and you ya  
You and me girl  
Ah, just you and me baby
