

That's on Me

Jake Owen

Kick them heels off baby
You look like you need a drink
Yeah it's been crazy lately
We need a night don't you think

You ain't gotta lift a finger so, girl, don't you dare
I'll light the candles on the mantle, let 'em take it from there

So don't you worry 'bout the whiskey, that's on Jack
If you need a little throwback, that's on Cash
We could turn the TV on fuzz
We could throw our clothes on that rug
The way I see it, that only leaves
Loving on you, that's on me
Loving on you, girl, that's on me

I got a few things baby
Here on my list of to-dos
I'ma check 'em off one by one
Probably gonna take me all night long
If you want it girl you got it
Anything under the moon
Tonight it's all about you

So don't you worry 'bout the whiskey, that's on Jack
If you need a little throwback, that's on Cash
We could turn the TV on fuzz
We could throw our clothes on that rug
The way I see it, that only leaves
Loving on you, that's on me
Loving on you, girl, that's on me

So take your heels off baby
You look like you need a drink

So don't you worry 'bout the whiskey, that's on Jack
If you need a little throwback, that's on Cash
We could turn the TV on fuzz
We could throw our clothes on that rug
The way I see it, that only leaves
Loving on you, that's on me
Loving on you, girl, that's on me
