The Bottle and Me

Jake Owen

Didn't come in here the old sympathy
And a honky tonk please, the last thing I need
Just set me up with your best whiskey
Yeah, this is just between the the bottle and me

I don't wanna talk, I don't need a friend
Don't think I stuttered when I said
I'm here to deal with a memory
Yeah, this is just between the the bottle and me

Man can't face the cold hard truth
With nothing less than ninety proof
In closing time, that's when I leave
'Til then it's just between the bottle and me

You're a good bartender, I know you wanna help
So if you see me talking to myself
Just walk away and let me be
Yeah, this is just between the bottle and me

A man can't face the cold hard truth
With nothing less than ninety proof
In closing time, that's when I leave
'Til then it's just between the bottle and me

A man can't face the cold hard truth
With nothing less than ninety proof
In closing time is when I leave
'Til then it's just between the bottle and me
'Til then it's just between the bottle and me
