

Them Old Love Songs

Jake Owen

Down a dusty Dixie road
My old Levi's draggin' tracks
Nobody cares 'bout where I'm going
All they know is I'm comin' back

I wish I had me a true fine woman
Let her rock me all night long
And maybe we could get it together
Like people do in them old love songs

I can hear somebody laughin'
Funny how it makes me sad
Well, God, I wish it was Sunday morning
'Cause Saturday night's sure feeling bad

I wish I had me a true fine woman
I'd let her rock me all night long
And maybe we could get it together
Like people do in them old love songs

(Come on)

Yeah, I wish I had me a true fine woman
I'd let her rock me all night long
Maybe we could get it together
Like people do in them old love songs

Maybe we could get it together
Like people do in them old love songs
