

# Modern Love

Jake Wesley Rogers

Am I supposed to propose right now?  
Are you supposed to say yes?  
Between you and me I'm afraid  
To end up like the rest  
2019 in New Orleans  
Psychic saying the same old thing  
Said you and me'd be married by spring  
Selling that old American dream

But your gemini don't mean nothing  
My fire sign don't make sense  
Don't gotta be out here running  
We can hold hands on the fence

You're my, you're my, you're my, you're my  
My modern love  
Oh my, oh my, oh my, oh my God  
Can't get enough  
We can break all the rules  
Move to the moon  
Check out that view  
You're my, you're my, you're my, you're my  
My modern love (huh)

2049 in an empty diner  
When did we become nine-to-fivers?  
Cold conversation, the world's on fire  
Shoot me if I end up a liar

Baby let them keep on watching  
I'm dancing like Fred Astaire  
Or maybe I'm Ginger Rogers  
I don't really fucking care

You're my, you're my, you're my, you're my  
My modern love  
Oh my, oh my, oh my, oh my God  
Can't get enough  
We can break all the rules  
Move to the moon  
Check out that view  
You're my, you're my, you're my, you're my  
My modern love

Those sacred cows don't mean nothing  
Heaven is in our beds  
Showing up to the funeral  
Wearing a wedding dress

You're my, you're my, you're my, you're my  
My modern love  
Oh my, oh my, oh my, oh my God  
Can't get enough  
We can break all the rules  
Move to the moon  
Check out that view (my modern love)  
You're my, you're my, you're my, you're my (ooh)

My modern love  
You're my, you're my, you're my, you're my  
My modern love  
Oh my, oh my, oh my, oh my God  
Can't get enough  
We can break all the rules, move to the moon  
Check out that view  
You're my, you're my, you're my, you're my  
My modern love (only be the, be the, be the modern love)

Only be the, be the, be the modern love
