

Hello Shitty Day

Jake Worthington

Hello shitty day (Hello, hello)
Glad you came my way
Brought all this pain and all of this rain
Washed my joy away
I was doin' just fine
In this world of mine
Now the skies are all gray and all I can say is
Hello shitty day

Cosmic sympathy
Finally caught up with me
Glad to know it's not just rainin' in my heart
My sweet 'ole misery
Needed some lowdown company
Like a hole in my head, now here we are

Hello shitty day (Hello, hello)
Glad you came my way
Brought all this pain and all of this rain
Washed my joy away
I was doin' just fine
In this world of mine
Now the skies are all gray and all I can say is
Hello shitty day

Whiskey retrograde
Got me in a bar room haze
Wishin' on unlucky stars tonight
Melancholy blue play me a fifty-two
Let that sad 'ole jukebox do me right

Hello shitty day (Hello, hello)
Glad you came my way
Brought all this pain and all of this rain
Washed my joy away
I was doin' just fine
In this world of mine
Now the skies are all gray and all I can say is
Hello shitty day

If you see a fella in a storm with no umbrella
Just light his cigarette and walk away
